Lord Mayor's Walk, York, YO31 7EX**

The future well being of humanity and the earth is dependent on a new world view in which the care of the planet, nourishment of the soul and the nurturing of the human community are integrated and seen as a continuum.

In this talk Satish Kumar will propose the trinity of Soil, Soul and Society as a guiding principle for the Age of Ecology which has wholeness, integrity and cohesion.. Our reverence for the earth, our care of the soul and a just order in society represent a vision of sustainability, spirituality and justice.

Satish Kumar is internationally known as a leading spokesperson for the emerging vision of a holistic, non-violent and ecologically sustainable society built upon the ideas of M.K.Gandhi and E.F.Schumacher. Satish has been editor of Resurgence magazine for over 35 years, was the founder of the Small School at Hartland and Schumacher College in Dartington, where he was Director of Programmes for 20 years.
